Empowering Dental Hygienists

Webinar on

Oral Health Considerations during COVID 19 infection

Webinar

Date : 17th July, 2021

Time: 10:00 am to

11:30 am

Organized By :

Centre for Dental Education and Research

All India Institute of Medical Sciences

New Delhi

Introduction:

Oral hygiene maintenance is an important part that one must practice during this pandemic. Protection of healthcare professionals and patients are the two crucial factors during the COVID -19 pandemic. Dental Hygienists acts as first line of contact for a patient and thus it becomes utmost important for dental hygienists to be well informed about the different preventive measures during COVID -19 infection.

The Centre for Dental Education and Research, All India Institute of Medical Sciences, New Delhi is conducting this training programme for the dental hygienists to educate them about the preventive measures for themselves and for their patients during COVID19 pandemic. By virtue of this training programme, we envisage to empower the dental hygienists to practice safe preventive procedures during COVID 19.

Objectives:

- To sensitize the dental hygienists regarding personal protection during COVID -19
- To sensitize the dental hygienists regarding patient protection during COVID -19

Intended Audience: Dental Hygienists
